Ports to access IIBX Trading application

Members coming through the firewall need to open the following ports to access the IIBX Trading application exe.

Destination URL	Ports	Direction
bow.iibx.co.in	Login communication :443 (SSL) Interactive Communication :9091 (TCP) Broadcast Communication: 9092 (TCP)	Uni

Note: IIBX Trading application works on TCP protocol. Members or Users can connect application exe via proxy. (Proxy details can be updated in Connection settings tab). In addition, TCP port 9091 and 9092 to be enabled through Proxy.

Manual Network Service Availability Check

To manually check the connectivity use telnet

Go to Start -> Run or press windows key + r and enter cmd

	NED (399) 85	82 84.7 F	
	Type the name of a pro resource, and Window	ogram, folder, docur s will open it for you	nent, or Internet
			~~
<u>)</u> pen:	cmd		

In the command prompt type

Telnet (Service host ip) (port)

Example:

Telnet bow.iibx.co.in 443 (To Check Internet Connectivity)

C:\>bow.iibx.co.in 443_

If available, it will give a blank screen with a blinking browser close the window by pressing on the X button

Else it would give an error message saying the connection cannot be established. If you receive such and error kindly request the Network Administrator to open the Ports on the host IPs given.
